NEWS RELEASE

PACIFIC IMPERIAL MINES INC. COMMENCES DRILL PROGRAM AT THE KEG MOUNTAIN PROPERTY

Vancouver, BC – June 11, 2014 Pacific Imperial Mines Inc., (the “Company”) (TSX-Venture:PPM) is pleased to announce the start of a diamond drill program at the Keg Mountain Project in Utah. Two 500 meter drill holes have been laid out to test a drill target defined by anomalous surface geochemical values of lead, zinc, copper, molybdenum, gold and silver that are coincident with a large Induced Polarization (IP) anomaly, indicating potential for a copper-molybdenum deposit and associated skarn mineralization.

The Company has an option to acquire up to a 65% interest in the Keg Mountain property held by Inland Explorations Ltd.
