**1. Nature of Business and Going Concern**

Pacific Imperial Mines Inc. (“the Company”) was incorporated under the British Columbia Business Corporations Act since September 18, 1987. The Company’s shares are listed on the TSX Venture Exchange. The Company’s principal office is located at Suite 1700, 700 West Pender Street, Vancouver, B.C. Canada V6C 1G8. The principal business of the Company is the identification, evaluation and acquisition of mineral properties, as well as exploration of mineral properties once acquired.

These financial statements of the Company have been prepared on a going-concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company has experienced losses since its inception amounting to \$7,281,619 as of December 31, 2021 (June 30, 2021 - \$7,163,470). The ability of the Company to meet its commitments as they become payable is dependent on the ability of the Company to acquire assets or a business or an interest therein, obtain the necessary financing, and develop assets or operations which will generate cash flows, either as a result of their disposal or from ongoing operations. The Company does not currently have assets or a business capable of generating ongoing cash flows. Although the Company has sufficient cash to meet its current administrative costs, there is no assurance that the Company will be successful in making an acquisition or in raising the necessary financing to do so. In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, have adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or results of operations at this time. While the extent of the impact is unknown, the Company anticipates this outbreak might increase the difficulty in capital raising. These conditions along with other matters indicate the existence of material uncertainties that may cast significant doubt about the Company’s ability to continue as a going concern. While the financial statements have been prepared on the basis of accounting principles applicable to a going concern, adverse conditions may cast significant doubt upon the validity of this assumption.

In the event the Company is unable to arrange appropriate financing, the carrying value of the Company’s assets could be subject to material adjustment. Furthermore, certain market conditions may cast significant doubt upon the validity of the going concern assumption.

These financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts which may differ from those shown in the financial statements.

**2. Summary of Significant Accounting Policies**

(a) Basis of presentation

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting (“IAS 34”), as issued by the International Accounting Standards Board (“IASB”). Accordingly, they do not include all of the information required for annual financial statements under International Financial Reporting Standards (“IFRS”) as issued by the IASB and should be read in conjunction with the Company’s audited financial statements for the year ended June 30, 2021. These unaudited condensed interim financial statements have been prepared on a historical cost basis except for certain financial instruments carried at fair value and are presented in Canadian dollars.

These condensed interim financial statements were approved by the Company’s Board of Directors on February 28, 2022.

(b) Recent accounting pronouncements

Accounting standard issued but not yet applied

Other new standards or amendments are either not applicable or not expected to have a significant impact on the Company’s financial statements.

**3. Mineral Interests**

Eagle Mountain Property, California

The Company has acquired by staking a 100% interest in the Eagle Mountain Lithium prospect located in Inyo County, California, within 15 kilometers of the Nevada border. The property currently consists of 167 placer claim units, each 20 acres in size, totaling approximately 3,340 acres located in the Alkali Flats area, near Death Valley Junction and covering most of the Eagle Mountain salina.

On September 12, 2018, the Company entered into a Staking Agreement with Star Peak Mining LLC to stake mining claims near Death Valley Junction California on behalf of Pacific Imperial Mines Nevada Inc.. In accordance with the agreement, Star Peak Mining LLC has staked 77 new placer claims and re-staked 90 existing placers claims on behalf of the Company under the name Pacific Imperial Mines Nevada Inc. On March 29, 2019, the Company staked an additional 56 claims in Inyo County, California to expand the Eagle Mountain Property.

*Fair Value*

For fair value estimates, the Company classifies its fair value measurements within a fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

- Level 1 – Unadjusted quoted prices at the measurement date for identical assets or liabilities in active markets.
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 – Significant unobservable inputs which are supported by little or no market activity.

Cash is measured at fair value on a recurring basis using Level 1 inputs. The estimated fair values of accounts payable and amounts due to related parties approximate their respective carrying values due to their short periods to maturity.
