1. Nature of Business and Going Concern

Pacific Imperial Mines Inc. ("the Company") was incorporated under the British Columbia Business Corporations Act since September 18, 1987. The Company's shares are listed on the TSX Venture Exchange. The Company's principal office is located at Suite 400, 1681 Chestnut Street, Vancouver, B.C. Canada V6J 4M6. The principal business of the Company is the identification, evaluation and acquisition of mineral properties, as well as exploration of mineral properties once acquired.

These consolidated financial statements of the Company have been prepared on a going-concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company has experienced losses since its inception amounting to \$7,670,214 as of March 31, 2024 (June 30, 2023 - \$7,609,783). The ability of the Company to meet its commitments as they become payable is dependent on the ability of the Company to acquire assets or a business or an interest therein, obtain the necessary financing, and develop assets or operations which will generate cash flows, either as a result of their disposal or from ongoing operations. The Company does not currently have assets or a business capable of generating ongoing cash flows. There is no assurance that the Company will be successful in making an acquisition or in raising the necessary financing to do so.

In the event the Company is unable to arrange appropriate financing, the carrying value of the Company's assets could be subject to material adjustment. Furthermore, certain market conditions may cast significant doubt upon the validity of the going concern assumption.

These consolidated financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts which may differ from those shown in the consolidated financial statements.

2. Summary of Significant Accounting Policies

(a) Basis of presentation

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting ("IAS 34"), as issued by the International Accounting Standards Board ("IASB"). Accordingly, they do not include all of the information required for annual financial statements under International Financial Reporting Standards ("IFRS") as issued by the IASB and should be read in conjunction with the Company's audited consolidated financial statements for the year ended June 30, 2023. These unaudited condensed consolidated interim financial statements have been prepared on a historical cost basis except for certain financial instruments carried at fair value and are presented in Canadian dollars.

These condensed consolidated interim financial statements were approved by the Company's Board of Directors on May 30, 2024.

The Company's objectives when managing capital are to identify, pursue and complete the exploration and development of mineral properties, to maintain financial strength, to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. The Company does not have any externally imposed capital requirements to which it is subject. Capital of the Company comprises of equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares.

The Company's investment policy is to invest its cash in financial instruments with financial institutions with terms to maturity selected to match expected timing of expenditures from continuing operations.

8. Financial Instruments and Financial Risk

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgement, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The Company's financial instruments consist of cash, accounts payable and amounts due to related parties. The following table summarizes information regarding the carrying values of the Company's financial instruments:

	March 31, 2024 \$	June 30, 2023 \$	
Assets as FVTPL (i)	29,414	11,481	
Liabilities at amortized cost (ii)	385,735	306,894	

⁽ii) Cash

(iii) Accounts payable, and amounts due to related parties

Fair Value

For fair value estimates, the Company classifies its fair value measurements within a fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

- Level 1 Unadjusted quoted prices at the measurement date for identical assets or liabilities in active markets.
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 Significant unobservable inputs which are supported by little or no market activity.

Cash is measured at fair value on a recurring basis using Level 1 inputs. The estimated fair values of accounts payable and amounts due to related parties approximate their respective carrying values due to their short periods to maturity.

For the Three and Nine Months Ended March 31, 2024 and 2023 (Unaudited, Expressed in Canadian Dollars)

8. Financial Instruments and Financial Risk (continued)

The Company's risk exposures and the related potential impact on the Company's financial instruments are summarized below:

Credit Risk

The Company is not exposed to significant credit risk. The Company limits exposure to credit risk by maintaining its cash with financial institutions.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage as outlined above.

The Company monitors its ability to meet its short-term administrative expenditures by raising additional funds through share issuances when required. All the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms. See Note 1 that describe the material uncertainties that cast significant doubt over the Company's ability to continue as a going concern.

Foreign Exchange Risk

As at March 31, 2024 the Company is not exposed to significant foreign exchange risk. The Company does not actively manage this risk.

Interest Rate Risk

The Company is not exposed to significant interest rate risk.
